HOW TO USE THIS TRACKER

Your CPALE study tracker

One topic a day, a weekly review, and a dashboard that cheers you on. Set it up once on the Setup tab and the whole tracker builds your plan for you.

BEFORE YOU START (one time only)

1 Make your own copy: File → Make a copy. Don't type in the shared original. Your copy already has the tick boxes and settings ready.

2 That's it. Go to the Setup tab next.

? If the "Ticked on" column shows an error after you tick: File → Settings → Calculation → Iterative calculation: ON. If a Done column shows TRUE/FALSE instead of tick boxes: select those cells → Insert → Checkbox.

STEP 1 · FILL IN THE SETUP TAB

Only type in the white boxes with orange text. Pink-shaded cells are calculated, so leave them alone.

- About you: your name, nickname, first-timer or repeater, and whether you work while reviewing. Choose "No" if you are a full-time reviewee and all work tags disappear.
- Exam & plan dates: your start date, CPALE Day 1, the subjects per exam day, your "finish all topics by" target and your preboard dates.
- Your week: for each day pick your work setup (Onsite / Work from home / Hybrid / Day off) and your study plan (1 topic / 2 topics / 3 topics / Weekly review / Rest day). Example: Sunday = Weekly review, Saturday = 2 topics.
- Two or three topics a day: choose "2 topics" or "3 topics" for any weekday. Those days show both topics in one row with one Done box, and the note tells you how many. Your plan finishes earlier and the leftover days become mastery days.
- Busy times at work: month-end close days (e.g. 5 to 10), busy season and up to two peak weeks. On these days your notes tell you to keep it light or do just 25 minutes.
- Rest days: holidays, birthdays, trips. Nothing is scheduled on these dates.

- Your materials: the book or reviewer you use per subject. It shows in your nightly notes, e.g. "Study + Valix Practical Accounting".

- Key dates & deadlines: LERIS filing, NBI clearance, Notice of Admission and so on. They appear on the dashboard with countdowns and as reminders on the Daily Checklist. The dates are estimates until PRC posts the official schedule.

STEP 2 · (OPTIONAL) USE YOUR REVIEW CENTER'S TOPICS

Each subject tab (FAR, AFAR, MS, TAX, AUD, RFBT) holds your topic list, up to 60 topics per subject. Edit it to match your review center before you start ticking.

- Rename a topic: type over its name.
- Add a topic: type it in the next empty row, then fill in TOS area, ≈ Items, Exam weight (Heavy / Medium / Light) and Study days (1, or 2 for a big topic). The code fills in by itself.
- Remove a topic: clear its row (Topic, TOS area, items, weight). Don't leave the plan pointing at a topic that's gone: check the "In your plan?" column.
- Then go to Setup → Topic order. "Automatic" schedules every topic on your subject tabs, mixed evenly across subjects, so you don't have to touch the Study Order tab. "Recommended" uses the hand-made order on the Study Order tab; if you added topics, add their codes there too. The note beside Topic order tells you if anything is missing.

- Preboards tab: pick your review center's preboard topics from the dropdowns, or clear the ones that don't apply.

STEP 3 · (OPTIONAL) CHANGE THE TOPIC ORDER

The Study Order tab lists all 135 study sessions (131 topics; four big topics take two days). Each study day gets the next row. To reorder, edit the Code column (e.g. FAR-12). Keep it with no blank rows. Part 1/2 then 2/2 makes a two-day topic: Day 1 study, Day 2 practice only. Use the Extra note column for reminders like "practice first".

STEP 4 · EVERY NIGHT

1. Open Progress Tracker. The Tonight card shows today's topic, its exam weight and tomorrow's topic.
2. Study, then go to Daily Checklist and tick Done on today's row. Your streak, progress bars, badges and calendar all update.

3. Write anything you struggled with in "My note (for Sunday)". It shows up in the Sunday Review List.
4. Too tired? Do 25 minutes and still tick the box. Small days count.

ON YOUR WEEKLY REVIEW DAY

Look at the Sunday Review List on Progress Tracker (the past 7 days). Redo anything marked "revisit", read your notes, then do a timed practice set. Tick the review row on the Daily Checklist when you're done.

WHAT EACH TAB DOES

- Setup: your settings. The whole plan is built from here.
- Progress Tracker: your dashboard with countdown, streak, Tonight card, subject progress, deadlines, the planned vs done chart and preboard scores.
- Badges Hall: 43 badges you unlock as you go.
- Calendar: month view of your plan. Colors show the subject, shows done days.
- Daily Checklist: one row per day. This is where you tick Done.
- Mastery: optional checklist of final-stretch materials (edit the items to match yours). Not counted in progress.
- Preboards: which topics each preboard covers and whether you've studied them.
- Study Order: the hand-made topic order (used when Setup → Topic order = Recommended).
- FAR, AFAR, MS, TAX, AUD, RFBT: your topic lists (edit them to match your review center) with planned date, status, TOS area, exam weight, study days and remarks.

TAGS IN YOUR NOTES

- Onsite: you work onsite today, so keep the topic lighter.
- Month-end close: 25 minutes is enough; bigger topics can be finished on review day.
- Busy season / Peak work week: light study, or a 25-minute minimum.
- Day 1 / Day 2: a two-day topic. Day 1 study, Day 2 practice only.
- : a deadline or reminder from your Key dates list.

- Exam weight (Heavy / Medium / Light) and ≈ Items come from the CPALE Table of Specifications (BOA Res. No. 30, s. 2022).

IMPORTANT

! Finish the Setup tab before you start ticking. Ticks are saved by date, but topics are calculated from your settings. If you later change your start date, study days, rest days or topic order, the topics shift and your old ticks may land on different topics.

! A ticked day with 2 or 3 topics counts every topic on that row as done. If you only finished one, leave it unticked and finish the rest first.

! Safe to change anytime: names, materials, key dates/deadlines, exam date and preboard scores.

! Don't delete or insert rows in Daily Checklist, Calendar or the subject tabs, and don't type over formula cells.

! Limits: the plan covers up to 366 days, up to 60 topics per subject, up to 400 study sessions (200 in a hand-made Study Order), and the Planned vs Done chart shows up to 34 weeks.

! Preboard pass rule on the dashboard: average of at least 75% with no subject below 65%.
